

Medical Update on Alzheimer's Disease: Prevention to Palliation

Kristoffer Rhoads, PhD

**6 – 8 p.m.
Tuesday
September 27**

**Harborview Research and Training Center auditorium
300 9th Ave, Seattle, WA 98104**

Join Kristoffer Rhoads, PhD for a discussion of the latest approach to preventing and treating Alzheimer's disease.

Dr. Rhoads is a clinical neuropsychologist specializing in the evaluation and treatment of dementia and neurodegenerative disorders.

Former co-director of the Memory Wellness Clinic at the Virginia Mason Medical Center Neurosciences Institute, he is currently the primary neuropsychologist for the UW Memory and Brain Wellness Center. Dr. Rhoads serves on the Board of Directors of the Washington Chapter of the Alzheimer's Association, and chairs the Health/Medical Care Subcommittee for the implementation of the Washington State Alzheimer's Disease plan.

A Washington Pioneer Network "Conversation Café"

Hosted by the UW Memory & Brain Wellness Center
